## Thompson Electric Receives City Business Recognition

The Sioux City Economic Development Department's "Growing Sioux City Business" initiative highlights businesses that provide significant growth and commitment in Sioux City. Today's recognition was presented to Thompson Electric Company to honor their dedication to Sioux City. Mr. Skip Perley, CEO, was presented with a plaque incorporating the Sioux City skyline, a Sioux City wind shirt and a certificate to receive a complimentary tree to be placed on the company property, recognizing their commitment to growing Sioux City.

Thompson Electric Company (TEC) is a long time Sioux City employer serving the community with electrical construction design and installation, data communications, fire safety systems, testing and preventative maintenance for commercial, industrial, multi-use, governmental, medical, hospitality and residential projects. With more than 100 employees in Sioux City, the company has been involved in major projects in the community including the Lakeport Commons shopping development, Betty Strong Encounter Center/Lewis & Clark Interpretive Center, several new schools and projects with many major industrial employers.

The company recently proposed a site plan to expand their facility located at 721 14<sup>th</sup> Street, a reflection of their commitment to growing their business in Sioux City. We look forward to this expansion project and are appreciative of the quality workmanship and service they provide to our community each day.

Thompson Electric is a sister company to Electric Innovations, a Sioux City company formed in 2000 as a result of merging Perlox Enterprises, Inc., The Light Source and Thompson Teledata. Thompson Electric Company is proud to be a third-generation, family-owned business and maintains permanent offices in Sioux City, Omaha and Sioux Falls.
